Asset Management

Manage and protect valuable mobile medical equipment with the ultimate location platform.

CenTrak’s Asset Management uniquely combines the industry’s most accurate Real-Time Location System (RTLS) with a proven security platform. Just one infrastructure to install and manage – making it the world’s most practical asset visibility solution available today. Clinical-Grade Locating™ and asset security with a single tag.

Key Functionality:
- Room-level accuracy to support PAR-level mobile medical equipment management
- Reports showing asset movement, alarms generated and prevented thefts
- Integration with elevators, door locks and security cameras
- Escalating system of alerts and security measures as assets approach doors and elevators
- Multi-Mode Technology – A unique combination of Wi-Fi locating, CenTrak’s Gen2IR™ and Low Frequency RF to future-proof investment and maximize ROI

Benefits of Asset Management:
CenTrak delivers rapid location and condition updates capable of capturing interactions between equipment, patients and staff within seconds.
- Enterprise visibility to asset location and status
- Reduces time search for equipment
- Increased staff satisfaction
- Automate PAR-level management
- Reduces shrinkage
- Improves clinical workflow
- Integrates with CMMS
What makes CenTrak Smarter?

**Clinical-Grade Locating™** – CenTrak’s Second Generation Infrared (Gen2IR™) delivers certainty-based location data covering rooms, beds, bays, nursing stations, hallway segments and other relevant workflow areas. Rapid location and condition updates reliably capture interactions between equipment, patients and staff within seconds.

**Multiple form factors** – Largest selection of tags including reusable, single use, infant, wander, and staff badges provide options for all types of patients and care environments.

**Multi-Mode Technology** – A unique combination of Wi-Fi, CenTrak’s Gen2IR, Low Frequency RF, UHF Active RFID, Bluetooth Low Energy (BLE), and others to future-proof investment and maximize ROI.

**Easy Installation** – Battery-powered devices are installed easily in patient care areas without the need to close rooms or deploy special infection prevention measures.

**Interoperability** – Open location platform for seamless integration with both existing and new applications including Nurse Call, Electronic Health Records, Capacity Management, Bed Management, Asset Management, Computerized Maintenance Management and Hand Hygiene Compliance.

**Reliability** – Ensures critical location, condition and status updates are delivered to the application level. Enterprise-class monitoring provides at-a-glance visibility. Devices and tags are equipped with long-lasting batteries.

**CenTrak’s Enterprise Location Services leverage multiple technologies to maximize utility and ROI.**

---

**Location Adoption Model**

- Application Specific
- Sub-Room
- Clinical-Grade
- Limited Certainty
- Zones
- Presence Detection

---

**Asset Tags**

- Asset Tag Mini
- Asset Tag Micro
- Multi-Mode Asset Tag
- DuraTag

**Patient Tags**

- Patient Tag Mini
- newbaby™ Umbilical Tag

**31-Day Tags**

**Staff Tags**

- Staff Badge
- Duress Badge

**Temperature / Environmental Sensors**

- Environmental Sensor
- Environmental Sensor LCD
